

INDICE

1. Fact and figures 1

1.1 Demography 1	
1.1.1 Which statistics available and which years?	
1.2 Transport and travel data	
1.2.1 Road network	
1.2.2 Car fleet and motorization	
1.2.3 Transport	
1.2.4 Use of private car	
1.2.5 Railway transport	
1.2.6 Local public transport	
1.2.7 The general frame of mobility as integration of more informative sources	
1.2.8 The mobility from the point of view of families	
1.2.9 The daily moving for work and studying	
1.2.10 Use of train	
1.2.11 Use of coach	
1.2.12 Use of buses, trolleybuses and trams	
1.2.13 Difficulty to reach services	
1.2.14 Which statistics available?	
1.2.15 Collection method?	
1.3 Land Use	
1.3.1 Resident buildings in Italy	
1.3.2 Commercial centres	
1.3.3 Schools	
1.3.4 Settlements	
1.3.5 Which statistics available and which years?	
1.4 Health	
1.4.1 Obesity	
1.4.2 Estimation of the number of disable persons	
1.4.3 Which statistics available and which years?	
1.5 Time spending	
1.5.1 Mass media and reading	
1.5.2 Leisure time	
1.5.3 Holidays	
1.5.4 Social participation	
1.5.5 Which statistics available and which years?	
1.6 Safety	
1.6.1 Road Accident Statistics	
1.6.2 Where accidents happen	
1.6.3 Temporary analysis	
1.6.4 How and why accidents happen (the nature of accidents and presumed causes).....	
1.6.5 Who are involved: drivers, passengers and pedestrians	
Subject involved in accidents: the analysis for road user, for sex and for age	
1.6.6 Accident costs statistics	
1.6.7 Which statistics available and which years?	
1.6.7 Nota Metodologica/ Collection method
